Previous Experience

Jun'15 – Dec'17: Synechron Technologies, Pune as IT Project Manager

Clients of Banking and Financial Services and IT domain

Dec'12 – Dec'13: SLK Global Solutions Pvt. Ltd., Pune as Assistant Manager

Jun'07 – Dec'12: Homeward Residential Pvt. Ltd., Pune as Team Lead

Projects Managed:

Tranquility – An IOT Project

Developing an IOT application to support an eased lifestyle for use of senior citizens and their family members for a worry-free efficient tracking of senior citizen's residence through various sensors with real time alerts for the family. The application also provides one click shopping platform to meet various needs of day-to-day life.

Hermes

This is the mobile app used by the Travel Merchant customer to easily review their reservation (Flights, Hotels, Rental Cars, & so on). See the relevant information regarding their trip & shop for additional trip components like activities (only features). Helped enhance overall trip itinerary by adding personal activities. The business objective of this Mobile App is to provide our clients (travel sellers) with a way to increase customer engagement with travelers after the trip is purchased.

Client from Travel & Hospitality Domain

The objective was to create web and mobile based application for customers to plan easy travel plans that includes, hotel or resorts booking with or without flights. The enterprise operating platform that delivers innovative merchandising solutions for airlines, hotels and resorts, destinations, theme parks and other travel merchants.

Osiris

Developing an enterprise software solution to meet the requirement of online readers by providing them a platform to read content when online with feature to download content securely within application and read when offline using all major web browser – Chrome*, Mozilla Firefox*, Safari* and Edge* and Android & iOS platforms. Solution should also support audio books where audio books could be downloaded & available to listen via app on both Android & iOS devices.

Job Tracker

Coordinated internal resources and third parties/vendors for the flawless execution of projects. Ensured that all projects are delivered on-time, within scope and within budget. Developing project scopes and objectives, involving all relevant stakeholders, and ensuring technical feasibility. Ensured resource availability and allocation. Developed a detailed project plan to track progress.

Interactive Wall

The project followed Waterfall methodology to create a virtual Interactive Wall using Kinect to project an interactive wall. The client used it for their stalls in exhibitions.

Synechron Technologies

HSBC (Multiple projects - Team Size: 35+)

Worked for global Data Service Layer Engineering Team that provides core development for critical projects across the entire bank using Java, Spring, Oracle Coherence cache, Drools, IBM MQ. As an IT Project Manager/Scrum Master, managed SDLC at various phases. Managed technical programs/projects up to €15m by RAG, RAID logs, Countermeasures, and Scheduling Variance Analysis (QPM). Managed project resources including procuring project staff, developing, motivating, coaching, and advising. Defined test plans and ensured that products are defect free before user acceptance testing. Removed impediments or guided the team to remove impediments by finding the right personnel to remove the impediment.

UBS (Program Management across APAC and Europe)

Provided metrics to management regarding project health, costs, efforts, defects. Managed project costs, and resources, tracked actual against budget and trade-off of delivery within time/ cost/ quality constraints. Worked as Workforce Lead to support and fulfil the manpower requirements across locations globally. Ensured the project resource plan is maintained and met and that appropriately skilled and experienced resources are appointed in line with the project plans. Prepared monthly review reports and maintained project details up to date. Maintained a track of budgets and forecasts, schedule, and cost variance at India/APAC level

Asurion (15+)

Engaged in overall process improvements within Project Management team and worked towards vision of PMO 2.0. Managed project budgets and variances. Produced high level project overview for the management. Worked as a part of Enterprise Program Office that mainly dealt with upcoming projects and its requirements, budgets, manpower, forecasts.
